Re: *Ex Parte* Presentation
RM-11355
In the Matter of Petition for Rulemaking
To Amend Rule Section 22.901 to Extend
Analog Sunset Date

Dear Ms. Dortch:

On behalf of the ATX Group, Inc., this letter summarizes separate meetings we had today with Mr. Fred Campbell, Chief of the Wireless Telecommunications Bureau, Mr. Barry Ohlson, Senior Legal Advisor to Commissioner Adelstein and Mr. Aaron Goldberger, Legal Advisor to Commissioner Tate. The discussion addressed the Petition for Rulemaking to extend the Analog Sunset Date. Gary Wallace, Vice President for Corporate Relations of ATX, and I represented ATX.

During the meeting we described ATX's telematics technology and services to several original equipment automobile manufacturers and discussed ATX's efforts to transition to digital equipment as envisioned by the Commission's rules. We related that the effort involved equipment manufacturers, cellular carriers, ATX's auto manufacturer customers and vehicle owner subscribers. We related that the investment and effort has been directed toward ensuring that the two-way communication of voice and data between a subscriber's automobile and the ATX response centers continue to reflect the high standard necessary for emergency response and other needs of the customers in the digital environment as it was in the analog environment.

Respectfully,

A handwritten signature in blue ink, appearing to read "John E. Logan", is written over the "Respectfully," text.

Copy to: Mr. Campbell, Mr. Ohlson and Mr. Goldberger
